24 Hour Emergency Response Number Sign-up Form

All shipping papers for hazardous materials are required to have a phone number listed that is answered by a person who is knowledgeable of the product being shipped and how to properly handle an emergency incident involving the product. This phone number must be answered by a person (not a voice mail) whenever the product is in transit, 24 hours a day.

To assist members in comply with this DOT requirement, MCPR has teamed up with West Central Environmental Consultants (WCEC) to provide this 24/7 phone number service at a very reasonable cost (see rates below).

Service runs from January 1st through December 31st of the same year.
